

Turnberry Villas

at Safehaven - Phase II

Situated amongst the grounds of the Ritz-Carlton, where space is limited and opportunities are exceptionally rare, these villas will be treasured by a very fortunate few.

The developers have worked hard to include a comprehensive list of specifications to satisfy even the most discerning of purchasers, while keeping the prices realistic and affordable.

Spread over three floors these villas benefit from excellent privacy, protection from the elements, bright interiors, far reaching views and cool breezes.

Investors can expect excellent returns on both rent and resale, as the location is right in the middle of all of the action and professionals will always be keen to move straight in.
